"(NC 85752711) Cairn. (1). "

"There is some doubt whether this artificial stony mound is a cairn. The situation on a slight false crest in open moorland is unremarkable. The mound is heather-covered with a conical rather than a 'bowl shaped' profile, and no cist or kerb is exposed. Apart from its somewhat larger size, it is indistinguishable from the three or four clearance heaps in the vicinity."

(OSFI:JB:14.1.1977).

"A heathergrown cairn 11m in diameter and about 1m high." (2).

(OSFI:EGC:31.5.1961).
