Hut Circle

NG 7973 7258 A hut circle is situated at an elevation of 55m on a shelf on the rough wooded hillside to the north-west of and about 100m from the stream *Alltan Chamasaigh* (called "Cammassie Burn" on the OS maps). It lies 160m at a bearing of 233° grid from the hut circle Alltan Chamasaigh (2).

The diameter (internal) of the circle is 6m and the relatively high wall of stone is too disturbed to find the entrance. The ambient vegetation is: bracken, moss and fine grass inside and outside the circle, which is in a wood of birch and oak.

Not shown on the OS maps.
