Dear Mr. Wood,

**Corriegarth Lodge - Settlement and Field System**

Thank you for your letter of 7 July, and the information which you enclosed. I was very interested to learn about the existence of the hut circles, and I will endeavour to make sure that no planting takes place in those areas.

The landscape proposals for Corriegarth are still at an early stage, so it is not yet known for sure whether there will be a pond in the sensitive area, nor the extent of the tree planting. However, if my client is in favour of an archeological survey and/or advisory visit, I will certainly let you know.

With many thanks for your help.

Yours sincerely,

*Joanna Burnett-Stuart*
